

JACKSON ENERGY AUTHORITY
RESIDENTIAL GAS RATE SCHEDULES

AVAILABILITY - GENERAL

These schedules are available to residential customers for domestic use in individual dwelling units. Private dwellings in which space is occasionally used for the conduct of business by a person residing therein will be served under this rate schedule. Where a portion of the dwelling is used regularly for the conduct of business, the gas consumed in that portion so used will be separately metered and billed under another appropriate gas rate. If separate piping, which permits separate metering is not provided by the customer, the entire premises shall be classified as non-residential and billed accordingly. The Residential Schedule shall not apply to service to multiple dwelling units or to institutions such as clubs, fraternities, orphanages, or homes; recognized rooming or boarding houses; the space in an apartment or other residential building primarily devoted to use as an office or studio for professional or other gainful purposes.

Gas supplied under this schedule is for the exclusive use of the customer and shall not be resold or shared with others.

BILLING UNITS

Gas supplied under these schedules will be measured in units of one hundred cubic feet (CCF) corrected to a pressure base of 14.65 psig, then converted to therms based on the heat content of one CCF. Billing units will be therms.
